

Precision in Metal Fabrication | Quality | Reliability | Innovation

Bama Fabrication

Precision in Metal Fabrication – Built to Last.

ABOUT BAMA FABRICATION

Who We Are

Bama Fabrication is a metal fabrication company based in Peterborough, UK. With nearly two decades of experience, we specialise in structural steelwork, architectural metalwork, and bespoke aluminium and stainless steel fabrication. Our focus on quality, accuracy, and reliability has established us as a trusted supplier for contractors and developers across multiple industries.

Why Choose Us?

- ✓ Proven Expertise – Years of experience delivering high-quality metalwork.
- ✓ Cutting-Edge Technology – Advanced machinery and welding techniques.
- ✓ Bespoke Solutions – Tailored designs to meet your exact requirements.
- ✓ Reliable & Professional On-time project completion with meticulous attention to detail.

WE OFFER A COMPREHENSIVE RANGE OF METAL FABRICATION SERVICES, FROM DESIGN TO INSTALLATION:

Structural Steelwork

- ✓ Design, fabrication, and installation of structural steel components
- ✓ Frames, beams, columns, and supports for commercial and residential developments

Architectural Metalwork

- ✓ Stylish metal staircases, balustrades, and handrails.
- ✓ Decorative and functional steel designs for buildings.

Stainless Steel & Aluminium Fabrication

- ✓ Custom-built stainless steel and aluminium products.
- ✓ Perfect for industrial settings, and architectural features.

OUR WORKSHOP & TECHNOLOGY

State-of-the-Art Facility

Our 3,500 sq. ft. workshop is equipped with:

- ✓ CNC plasma cutting machines
- ✓ Advanced welding stations
- ✓ Rolling, bending, and folding machinery

Our Process

Consultation & Design – Understanding your vision and project requirements

Precision Fabrication – Executing work with accuracy and care

Quality Control & Testing – Ensuring every piece meets the highest standards.

Installation & Delivery – Seamless, hassle-free setup.

Industries We Serve

Industries We Serve

At Bama Fabrication Ltd, we deliver high-quality metal fabrication solutions tailored to the specific demands of a wide range of sectors. Our experience spans commercial construction, infrastructure, defence, and industrial applications, with each project built to meet exacting standards of safety, strength, and compliance.

Construction & Architecture

We collaborate with architects, developers, and principal contractors to deliver high-performance metalwork for commercial, residential, and public-sector projects.

Services include:

- ✓ Structural steelwork for new builds, extensions, and refurbishments
- ✓ Bespoke balustrades, handrails, and safety barriers
- ✓ Architectural metalwork and feature elements
- ✓ Staircases, access platforms, and canopies

Defence & Secure Facilities

Bama Fabrication is proud to support projects on Ministry of Defence (MOD) sites, with packages completed for Tier 1 contractors including Babcock. Our familiarity with secure site protocols and stringent fabrication standards ensures reliable delivery in highly regulated environments.

Capabilities include:

- ✓ Fabrication of secure structural elements for military and government infrastructure
- ✓ Compliant documentation, traceability, and quality assurance under EXC 3
- ✓ Rapid mobilisation and coordination with site-specific security and logistics protocols

Manufacturing & Engineering

Supporting the manufacturing and engineering sectors, we supply durable metal components designed for heavy-duty applications.

Our fabrication services include:

- ✓ Precision-machined components.
- ✓ Brackets and support structures.
- ✓ Sheet metal fabrication.

Residential & Luxury Property

For high-end homes and bespoke property developments, we craft elegant and functional metalwork that enhances interior and exterior spaces.

Our expertise includes:

- ✓ Custom-designed staircases.
- ✓ Bespoke balustrades and handrails.
- ✓ Architectural metalwork.

Public & Government Buildings

We provide durable and secure metal fabrication solutions for public infrastructure, government buildings, and community spaces.

Our services include:

- ✓ Walkways and access platforms.
- ✓ Security railings and fencing.
- ✓ Custom metal fixtures

From structural steelwork to specialist metal fabrication, Bama Fabrication delivers high-quality solutions across multiple sectors. Our team is dedicated to precision, durability, and craftsmanship, ensuring every project exceeds expectations.

Our Commitment to Quality & Compliance

At Bama Fabrication, we take quality and safety seriously. Our metal fabrication processes adhere to the highest industry standards, ensuring every project meets strict regulatory requirements for strength, durability, and precision.

Accreditations & Industry Standards

We are fully certified to manufacture and install structural steel and aluminium fabrications in compliance with UK and regulations:

- ✓ BS 1090-1:2009 + A1:2011
- ✓ BS EN 1090-2
- ✓ BS EN 1090-3

These accreditations allow us to certify our fabricated steel and aluminium structures for use in commercial, residential, and industrial projects, giving our clients confidence in the strength, reliability, and compliance of our work.

Our Quality Control Process

To maintain these high standards, we implement a rigorous quality control process throughout every stage of production:

- ✓ Material Selection & Traceability – We source only high-grade steel and aluminium from trusted suppliers, ensuring full traceability of materials.
- ✓ Precision Engineering & Fabrication – Using CNC machining, laser cutting, and advanced welding techniques, we guarantee precision and consistency.
- ✓ Final Inspection & Certification – Each completed project is fully inspected, documented, and certified to comply with BS EN 1090 standards before delivery or installation.
- ✓ Final Inspection & Certification – Each completed project is fully inspected, documented, and certified to comply with BS EN 1090 standards before delivery or installation.

WHY CHOOSE BAMA FABRICATION?

We take pride in delivering quality metal fabrication services with a focus on:

Unmatched Expertise & Experience

- ✓ 15+ years of experience in steel and metal fabrication.
- ✓ Skilled craftsmen dedicated to precision and durability.

Tailored Solutions for Every Project

- ✓ Bespoke designs to match your exact specifications.
- ✓ We handle everything from design to installation.

Cutting-Edge Technology & Premium Materials

- ✓ Modern machinery and welding equipment for accuracy.
- ✓ High-quality stainless steel, aluminium, and structural steel.

Competitive Pricing & On-Time Delivery

- ✓ Projects delivered on schedule, every time.
